The Sign-In Message

When you first sign in, a short message is usually displayed. This contains information on updates in SABRE or promotional material from the vendors selling their services through SABRE.

SIGN-OUT

To sign out of the area you are currently working in use the entry **SO**

If you have a transaction active when you attempt to sign out eg.a PNR, SABRE will not sign out but will tell you to finish a transaction.

ENCODE AND DECODE

Many of SABRE's formats are built up on codes. You will need to know how to encode and decode names if you are to understand and construct the formats.

Name	Encode	Decode
Aircraft	W/EQ-Name of manufacturer	W/EQ*XXX
Airline	W/-ALName	W/*XX
Airport	W/-APName	W/*XXX
City	W/-CCName	W/*XXX

Name substitute the name of the airline, city etc

XXX substitute the code of the airline, city etc

CITY PAIR AVAILABILITY

To request a City Pair Availability (CPA) display in SABRE the procedure is as follows:

Format

1 Date City of Departure City of Arrival

Example

110MARLCAATH

1 is the Identification Code Key for availability

10MAR is the date. The month must always be the first 3 letters. If date is omitted SABRE assumes today's.

0900 The time may be written either as 9, 09, 0900 or 9A. If the time is omitted SABRE will default to the flight closest to 1300
